

Pyrenees Shire  
 Natte Yallock Community Action Plan  
 2015—2020

2017-18  
 October Review

# Natte Yallock bids historic town hall a fond farewell

The Natte Yallock community said one last farewell to their town hall during a massive celebration last Sunday. 100616 29

# INTRODUCTION

## “Our Community”

*The residents of Natta Yallock enjoy and thrive on our idyllic, rural, farming lifestyle, treasure the tenacity of our forebears and the history of our district, marvel at the beauty and power of our riverside environment, value the thoughts and ideals of our many community groups, and rejoice at the friendships formed amongst our tight-knit community.*

Our vision for the future is to continue the work of our forefathers to ensure that the community of Natta Yallock continues to exist on Big Water - Little Plain for many years to come and is serviced and supported by federal, state and local governments and a caring community.

The Natta Yallock Community is a small, rural community that covers a large geographical area represented by mainly farming families. We have a stable population with the majority of families having lived in the area over a long period of time. We have many active groups/clubs in the community including Landcare, Primary School, Football and Netball Club, Tennis Club, Cricket Club, CFA and Recreation Reserve Committee, Cemetery Trust with most community members involved in several groups. Our Football and Netball Club is amalgamated with the township of Bealiba.

We are a very supportive community and very active in advancing our communities' best interests. We have updated our Recreation Reserve Complex facilities (1999) and replaced our ageing public amenities (2006-7). In 2008 we received a Water Grant to install two 5000gal, an 1800 gal tank and improve ground water problems by connecting downpipes to the new tanks.

In 2012 a bore was also sunk on the reserve and a storage tank installed. The bore water is very salty but there is access to water in case of emergency or for stock. We now have access to a bore that provides good quality water to water the oval following the installation of watering system and reseeded of oval. Two new tanks were provided by landcare and have been installed to hold the water for watering purposes. It's great to see green grass on the oval for most of the year! Flood Recovery funding in 2012-13 enabled the community to plan for the future by upgrading the power to the Reserve, redesign the current football/netball changerooms, resurface netball courts and address drainage issues. In 2013-14 we received further funding to commence Stage 2 renovations at the complex & these were completed 2014.

Funding from DELWP in 2015 has also enabled us to improve drainage in the carpark area, seal the space between the building and courts and install a path in front of the complex and bollards have been installed to designate parking areas and provide emergency access.

Funding from the Pyrenees Shire Community Grant Program in 2016 enabled the committee to install safety bollards in the carpark to create emergency vehicle access.

The Reserve is an important part of Natte Yallock as it is the hub of the community and most of the community celebrations or activities are conducted at the Recreation Reserve.

We are also very proud of our school, which has received high recognition for its programs particularly with information technology and with environmental issues.

Our football/netball club amalgamated with neighboring Bealiba in 1962 and has a proud history of bring a strong family orientated club. In 2011 the club joined the Maryborough and Castlemaine District Football/Netball League as the Lexton Plains League disbanded in 2010. Both the senior football and netball teams played in the finals series in 2016.

In September 2010 (in excess of 77ml) and again in January 2011( 200ml) the community of Natte Yallock was impacted upon by arguably the biggest floods since 1956. Two homes were inundated and many kilometers of fencing were washed away or damaged. The Pyrenees Shire Council was quick to provide assistance for the residents and the shire representatives co-ordinated the large team of volunteers who donated their time to help the residents begin the massive task of Flood Recovery. The community of Natte Yallock and district is forever grateful for the assistance it received from the volunteers and for their friendship.

During the year the community was successful with Flood Recovery funding to host an event to bring the community together and thank the many volunteers for their support.

### Flood Recovery event at Natte

Members of the Flood Recovery Group enjoying the races - Allan Marshall, Activist Margaret Pilgrim, Maurice Cain, Dale Fraser, Cr John Quinn, Lois Lyons and Joe Helper MP.

A Flood Recovery book "Reflections" pictorially recorded the flood for future generations and was unveiled at the celebratory dinner which was held in October 2011.

The community again experienced major flooding when the Avoca River broke its banks twice in September 2016. The practice cricket wicket received considerable damage, the air conditioners and pump were deemed unrepairable, and the oval is being monitored. The playgroup softfall will need to be replaced. The interior of the complex was luckily not impacted. The school yard was flooded however the water did not enter the building. Farming land was severely impacted once again, fencing damaged and crops damaged.

## ***Population – 2016 Census figures not available yet***

In the 2006 Census, there were 188 persons usually resident in Natte Yallock (Suburb): 52.1% were males and 47.9% were females.

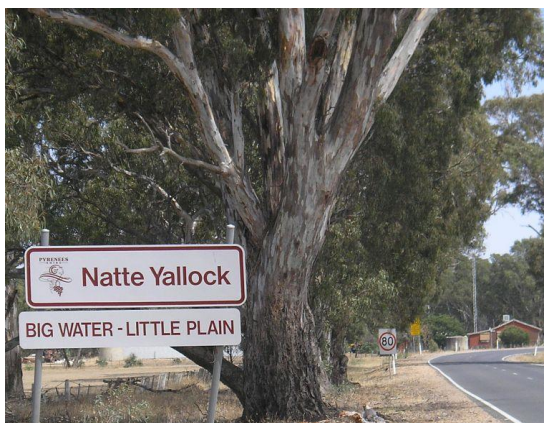

People and growth: In the 2006 Census 16.5% of the population usually resident in Natte Yallock (Suburb) were children aged between 0-14 years, and 37.8% were persons aged 55 years and over. Median age: 44 years, compared with 37 years in Australia

Age groups: 0-4 years 6; 5-14 years 25; 15-24 years 21; 25-54 years 64; 55-64 years 33; 65 years and over 38  
Median age of persons 44 years

Household characteristics: In the 2006 Census there were 72 occupied private dwellings counted in Natte Yallock (Suburb): 100.0% were separate houses.

In the 2006 Census, there were 56 families in Natte Yallock (Suburb): 42.9% were couple families with children, 39.3% were couple families without children, 10.7% were one parent families and 7.1% were other families.

## ***History***

Owing to the abundance of food and water in the district the aboriginal tribes in the area were physically well developed and were peaceful tribes with some of the young men being trained as horsemen and stockmen. Members of the tribe were still in the district around the turn of the century.

The first European settlers arrived in the early 1840's with the 'Rathscar Run' extending from Avoca to Bealiba on both sides of the Avoca River. In 1848 the Run was divided into Nettyallock, east of the river and Moyriesk and Green Hills, west of the river.

In 1854 Nettyallock was divided into Natte Yallock and Archdale. Many of the early farmers tilled the land to provide food for the influx of miners in the 1850's.

With the discovery of gold in the region there was a great influx of people searching for gold, however as the 'golden years' came to an end from 1851 – 1861 there was much interest in

obtaining freehold land in order to settle down as farmers.

Floods have been an ongoing problem for the farmers who settled along the Avoca River & the 2 disastrous floods in 1870 justified the naming of Natte Yallock – “Big Water – Little Plain”.

## ***Geographic Location***

Natte Yallock is a small rural town in the Australian state of Victoria. Natte Yallock is located in the Pyrenees Shire local government area, 200 kilometres (120 miles) north west of the state capital, Melbourne and 90 kilometres (56 miles) from the regional cities of Bendigo and Ballarat.

## ***Stakeholders - Natte Yallock Recreation Reserve***

The Natte Yallock Recreation Reserve Inc Committee of Management manages the reserve and works with the user groups to ensure the facilities are pleasant, safe and capable of supporting the many user groups and their activities.

Key user organisations include :

1. Natte Bealiba Football/Netball Club;
2. Natte Yallock Cricket Club;
3. Natte Yallock Tennis Club- in recession once again
4. Natte Yallock Landcare;
5. The community

## ***Aims:***

1. To manage and maintain the reserve and its buildings which include the public hall, public toilet, football/netball change rooms, kitchen and entertaining area.
2. To supervise and monitor the use of the reserve and its buildings.
3. To provide a safe and healthy environment for user organisations and visitors.
4. To provide pleasant facilities for community use.
5. To ensure access to all community members.

Other community stakeholders include: 1. CFA                      2. Cemetery Trust                      3. Natte Yallock Primary School

## *What we love about our Community*

**Strengths:** We are small, tight-knit, farming community that prides itself on working together for the betterment of the community. We rely on community members to provide many hours of volunteer labour and use of their own equipment, including transporting of it, to maintain our community areas. Many of the projects completed at the reserve have been built and maintained by a wonderful group of volunteers, including the upgrade of the complex in 2000 (a team of 3-4 volunteers worked with the builder every day) and the recent building of toilets and installation of rain water tanks.

Most of the town's infrastructure is based at the Recreation Reserve and it is the hub of the community. This is a benefit to the community as it has one area to maintain. The relocation of the CFA shed to the Reserve is being considered, especially as the Reserve is the designated Safer Place for the community.

Our school is a focal point of the town and the community is proud of the children's achievements. The school has received high recognition for its programs particularly with information technology and with environmental issues. The students have presented and participated in international conferences (e.g. International River Health Conference, Canberra). The school was an integral member of the Leading Practice Program and had many visiting schools from metropolitan and country areas. A key focus at the school is Leadership and many students from our small school have also gone onto leadership roles at secondary school.

The children have been competing in the RACV Energy Breakthrough for several years with great success.

We have a strong, well-regarded Landcare Group that not only supports the river and natural environment but also actively organizes farming forums and workshops that support the farming community.

## Challenges:

- Being situated along the Avoca River, the threat of floods is always in the back of our minds.
- Our community members live and work in three different shires, (Pyrenees, Central Goldfields and Northern Grampians), which can make applying for grants for maintenance/development of our community difficult at times
- We are situated at the northern edge of the Pyrenees Shire
- Maintaining numbers of children at the Primary School.
- Retaining youth in the district. Many of the young farmers no longer live on the family and prefer to live in larger centres and travel to work at the farm.
- 

**Opportunities:** With current Flood Recovery work being carried out there is a great opportunity to fix problems that have been neglected for many years. Regular communication with the Shire Council officers over the last 4 years has enabled the community to express its vision for the future and enabled Council to access funds for major upgrades at the Reserve and in the Natte Yallock district.

While the flood caused major damage to the town and had a devastating effect on the farming community, the funding that has been made available has enabled the community to repair the damage and upgrade the infrastructure for the future.

## Common values and attributes:

We want continued success for our clubs/groups, especially within the primary school (to maintain high student numbers) and football/netball clubs (with adequate player numbers and social support that the club provides as well as some onfield success). We would like to see continued upgrading of our community facilities and better communication with the shire to help facilitate this. Any support we can access that will make it easier for families to maintain their connection with the community and its sporting /social network would be appreciated. While each group has their individual “wish list” there are some major issues that need addressing for the betterment of all the community.

**Successful projects in 2016-17**

1. **Replace Natte Coach's Box** with possible 2 storey style. Grant successful in 2015 and work has commenced on construction- to be in place by start of 2017 season
2. **Air Conditioning** in the kitchen to improve working conditions & reduce power consumption and stress on fridges
3. **Entrance foyer-** investigate options for decorating the foyer to reflect the history of the district and community  
Table/Dresser for foyer made from hall timber  
Restoration of hall seats
4. **Emergencies Happen Project:** follow up session in late 2015
5. **Seat from the hall** was restored and has plaque noting its significance  
  
Also floor boards from the hall we used to make a frame for a mirror which is now located in the foyer along with a sideboard. These were made by the Maryborough Men's Shed. Historic hall photos are also displayed

## “Farewell to the Hall”

In early 2016, after consultation with the community, the committee voted to apply for permits from DELWP and the Pyrenees Shire to demolish the Community Hall as it had fallen into disrepair and was no longer being used due to the major renovations to the Community Complex. Funding was obtained from DELWP to assist with the demolition and work commenced in August. The site will be cleared by the end of the year and this will make way for the possible relocation of the Natte Yallock Fire Shed to the Recreation Reserve.

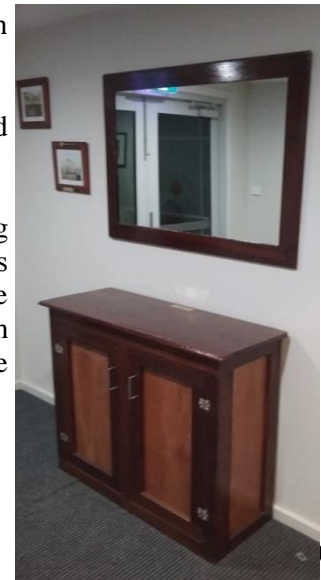

Prior to work commencing, the committee invited members of the Natte Yallock (& district) community to attend a “Farewell to the Hall” function on Sunday 5<sup>th</sup> June, some 81 years after the hall was built by Mr C Astbury and Mr Henry Streeter, with help from the community. The function was well attended (50+) and the afternoon commenced with a group photo in front of the hall. The gathering then moved to the complex and Alan Streeter and Pauline Coates welcomed guests and outlined the history of the hall.

There was much reminiscing, old photos shared, a cup of tea in the old hall cups, and an opportunity to raise funds to have the old seats from the hall restored.

This seat from the hall was restored by the Maryborough Men’s Shed.

Floor boards were salvaged during the demolition phase and the Men’s Shed members also made a frame for a mirror and this sideboard, both of which have pride of place in the foyer

***Our Vision:*** To improve the reserve in a sustainable manner to meet current and future needs and expectations of the community.

### ***Our Planning Process - CAP for 2015-2020 was reviewed and updated in October 2017***

The initial draft for the Community Action Plan was started at our first meeting on 9<sup>th</sup> of March 2005 and it was reviewed and up dated in January 2009.

Present at these initial meeting were representatives from most user groups and organisations from the broader community.

In mid 2011 the Pyrenees Shire Council engaged SGL Consulting Group to prepare the master plan with input from Council, the Natte Yallock Recreation Reserve Committee of Management, and the broader Natte Yallock community. 30 community members attended and it was a valuable session with many varied of ideas and opinions presented throughout the session. The master plan has been prepared and presented to the Shire and the community.

2012-13 Update: As there will be major works carried over the next few months we will not know what actions haven't been met or what we require for the future until next year.

2015-16 Update: In September members of the NYRR Committee of Management met with user groups and representatives from the Cemetery Trust and School to review the CAP for the next 5 years. In November 2015 the committee acknowledged the valuable support of previous committee members who have volunteered their services over the last 25 years at a celebratory dinner.

The 2017-18 review of the CAP was held in October 2017 and plans for the coming year/s are listed below

## ***Priorities for 2017-18***

### *Reserve*

1. **Replace Scoreboard – damaged during flood- grant in pending**
2. **Spinaways in the changerooms, showers, toilets, storeroom to alleviate moisture/ mould /damage to timber work & plaster this issue was not resolved during stage 2 renovations. Rec Reserve committee to do**
3. **Fenced area for the rubbish bins – Rec Reserve committee to do**
4. **Kitchen upgrade (no funding left after the stage 2 upgrade) is a high priority as the facilities are used during the football/netball season after training and home games. The club also caters for funerals, family functions and training sessions and it is the Safer Place for Natte Yallock in case of emergency**
  - a) **Stainless steel splashbacks and benches**
  - b) **Commercial dishwasher**
  - c) **Deeper sink**
  - d) **Canopy / Exhaust fan system**
  - e) **Relocate cupboards in the kitchen and investigate options for drawers instead of cupboards.**
5. **Upgrade the side delivery door access, replace the door and lock and install verandah/cover over the door to protect the access**
6. **New catch nets behind the goals at both ends of the oval.**
7. **Airconditioner for dining area- this was not covered in Stage 2 project due to lack of funding**
8. **Shade structure over the playground- Grant available- not successful**
9. **Watering the Oval: work with Shire to discuss options for acquiring water for the oval. Currently using bore on private land**
10. **Public Toilet situation- cleaning and supplies.**

## ***Town***

- 1. Parking on the roadside near the cemetery is dangerous- need to investigate safer option  
Also seating and shelter at the cemetery**
- 2. Town stone walls - we never received these and it was suggested that we could use the funds for something more important at the Reserve but this never eventuated- investigate possibility of this to assist with kitchen upgrade**
- 3. Mowing of grass in the town zone**
- 4. Liaise with the SES to establish a communication system- this never happened**
- 5. Drainage issues on road behind the school that leads to Moonambel- corner Mills Rd. This was discussed with Council after the 2011 floods but there were not enough funds to address the community's concerns.**
- 6. Street Light outside Rec Reserve- this used to shine into the carpark area and provided light when patrons were leaving the complex. This has been redirected and shines onto empty street..**

Timeframe Code: S = Short 0-6 months; M=Medium 6-18 months; L= Longer 18+months ;

Date **Project Ended**

Environments : **Built (B)**; **Natural (N)**; **Social (S)**; **Economic (E)**; **Flood recovery (FR)**

**Our Vision and Objectives for the 4 environments targeted by the shire.**

**Built Environment:**

- To create a beautiful, safe and accessible built environment, sympathetic to its cultural and natural heritage
- To maintain and further enhance the built environment
- To carefully plan all renovations, extensions, additions to the ECC

**Natural Environment:**

- To act as caretakers for our natural environment by maintaining and re vegetating areas around the community,
- To promote and care for the natural environment in our local community

**Social Environment:**

- To provide a safe, healthy, happy social environment for all ages in the community.
- Build social relationships through events and activities, both within Natte Yallock and throughout the broader district
- To provide opportunities to promote and support healthy lifestyles
- To celebrate the successes of the community.

**Economic Environment:**

- To provide opportunities to support the farming businesses in the district via workshops, field days & information sessions.

<b>Description of Action / Objectives</b> What is planned and Why? List in order of priority. Indicate Priority if necessary H- High, M- Medium, L -Low	<b>Built Social Natural Economic</b>	S M L	<b>Partners &amp; Funding</b>	<b>Actions</b>	<b>Project ended</b>
<b>TOWN</b>					
Drainage on road to Redbank	N	S	PSC	Any FR funding left over could be used to address drainage.	
Also meeting with SES in Sept 2015 to discuss emergency communication especially during floods	S	S	PSC; SES	Liaise with Tony Grimme - no follow up occurred	
<b>Extra Mowing session especially in the 80kmp zone.</b>	N	S	PSC	Consult with PSC	
Street Light outside Rec Reserve- this used to shine into the carpark area and provided light when patrons were leaving the complex. This has been redirected and shines onto empty street.	N	M - L	PSC; Powercor	This was discussed when the power upgrade was done but nothing eventuated	
<b>CEMETERY</b>					
1.Need for work along the table drain in front of the cemetery as it is dangerous for car parking off the road.	N	H	PSC	Get a letter from the Cemetery Trust	
2.Trees at cemetery need to be checked also	N	M		Has this been done?	
3.Toilets -portable toilets that can be used at the Cemetery and at other locations/events.	B	M	Cemetery Trust; PSC	1.Get quotes for portable toilets - \$2000 plus trailer \$700 2.Check with PSC re toilet block v portable	
4.Increased Seating as more graveside funeral services are held at the cemetery rather than church or hall	B	M	Cemetery Trust;		
5.Shade Structure - as above	B	L	Cem Trust		
<b>CFA</b>					
1.Relocate the fire shed and facilities to Reserve so all are located at one point. Currently there are no facilities for women Also the reserve is the designated Safer Place for the district. The shed replacement has progressed up the CFA list.	B	L	CFA region; DEPI;PSC	1. Inspection of site at the reserve by CFA. 2. Work with the Rec Reserve CofM and PSC to get audit done on hall and meet with Planning Manager from shire 3. Site cleaned & is ready for next stage 4. CFA to do a site plan for shed- Oct '17	

				5. We need to write a letter of approval		
<b>FOOTBALL/NETBALL</b>						
1. New 2 storey coaches box as the current one is too small, unsuitable and were damaged during floods.	B		L	NBFNC; NYRR; VCFL; PSC	1. Grant successful 2015 3. Frame has been made. 4. Install in time for 2017 season	2017
3. Install catch nets behind goal posts at each end to protect spectators and reduce time lost retrieving footballs	B		M -L	NBFNC	1. Obtain quotes and look for funding	
<b>4. Membership Drive</b> Improve facilities at the club so we can attract new players to the club.	E	S		NBFNC		ongoing
<b>5. Sponsorship</b> - work on sponsorship program for the F/N club	E			NBFNC		ongoing
<b>6. Fundraising</b> - for the club but also for future upgrades Wool Day -held annually in Oct Monster Auction? - possibly re run this event. Usual evening events Cropping of land donated by community Promote venue for possible events /camping activities	E	S		NBFNC		ongoing
<b>CRICKET</b>						
1. Erect bollards in front of new cricket nets. Practice Wicket damaged during 2016 floods and needs fixing	B	N	S- M	Members: PSC Insur	1. Still working on them	
<b>TENNIS</b>						
1. Tennis club is in recession in 2016	S		S			
<b>REC. RESERVE</b>						
1. Monitor the condition of the oval following the two flood episodes in Sep 2016.	B		L	PSC-	1. Accessed by PSC insurers and is being monitored.	
<b>2. Water for oval:</b> currently comes from bore on private land and Natte Landcare has supported maintenance of pumps etc But if this arrangement ceases the CofM may have issues with securing water etc. Previous attempts include: PSC bore at the Reserve is too salty to be used for watering and Young's Rd bore has issues of distance and powering pump etc.	N		M	CofM; PSC; NYL	1. Work with PSC to investigate options- small desal? Young's Rd	

3. <b>White Ant inspection</b> of building- next inspection 2018 b)Recently black ants have appeared in kitchen area.	N			Com of M	a)Next inspection 2018 b)Remove items attracting ants, keep area clean, and treat locally.	ongoing
4. <b>Playground..</b> i)Shade Sails ii)Damage to soft fall surface during 2017	B	S	M -L	PSC; Grants	i)a)Grant pending. b)Measure site and obtain quotes. ii)a) as has been inspected and communication with PSC b)	
5. <b>Painting of verandah posts on oval side of complex.</b>	B		S	NYRR	Notify volunteers of working bee when weather ok	
6. <b>Block off access</b> around the ground at the north west corner of the building to reduce the risk of accidents to pedestrians	N	S	S- M	PSC DELWP	Stage 2-no funding to do this	
7. <b>Solar Panels</b> - investigate opportunities to install solar panels on the roof of the Complex to reduce electricity running costs.	N	E	L	Climate Communit ies; AS&R;PSC	Investigate grant opportunities Send power bill to compare costing and look for better options Check with Avoca Rec Reserve	
8.Public Toilets- cleaning. a)Our community has always cleaned and maintained the amenities however we feel that as other toilet blocks within the Pyrenees Shire are cleaned by shire we are requesting that the Natte public toilets are placed on the list for cleaning.	S			PSC	a)Write to Shire again re cleaning by shire.(To be reviewed by Shire in 2014) Follow up conversation- maybe PSC will supply paper & cleaning materials! b) Follow up phone conversation /letter - Sept 2017 - response? It is not a public toilet. Need to discuss with Council at meeting in Nov 2017	
9.Fundraising for the Reserve to maintain infrastructure and provide matched funding for future grants - Hire of venue - Donations for restoration of hall seats and building on hall table etc from recycled floor timber from hall.	E		M -L	C Of M; NBFNC; Communit y; PHVC		
<b>COMPLEX</b>						
<b>Insurance of Building-</b> investigate options for this with PSC and DELWP	E		S	PSC; DELWP	DELWP Annual Return mentioned Insurance- sent to PSC for discussion Oct. No response	
1. <b>Kitchen Upgrade - High Priority</b> a)Canopy/ Exhaust Fan in kitchen	S	B	H	CofM; Catering;	We have \$4000 (grant) and \$1000 NYRR) Invetsigate grant opportunities to	

b)Relocate cupboards in kitchen-catering committee c)Deeper sink in kitchen d)Stainless steel splashbacks - & bench tops maybe e)Dishwasher f) Upgrade the side delivery door access, replace the door and lock and install verandah/cover over the door to protect the access g)Monitor power board on kitchen wall-due for upgrade?			NBFNC	support this funding to complete major upgrade as this was not done in stage 2 due to lack of funds	
<b>2.Dining Area/Social Rooms/Bar</b> a)Reverse Cycle air con in dining area to improve conditions for patrons b)Cool room in the storeroom behind the bar	N	S	PSC -	a)Costing- Investigate grant options b)Costing- Investigate grant options c)Costing- Get quote. Investigate Funding	
<b>3.Entrance foyer-</b> investigate options for decorating the foyer to reflect the history of the district and community Table/Dresser for foyer made from hall timber Restoration of hall seats	S	S-m	NYRR; NBFNC; Mb Mens Shed	Ask community for historic photos of the town, buildings, events, district, people	2017
<b>4.Shower room(Natte)-</b> monitor mould and ventilation in room. This is part of stage 2 and needs to be reported to council it issues continue. Ongoing- Monitor. We need to install 8 spinaways in change rooms, showers, store room.	B		NYRR Com	a)Get quote -\$80. Organise quote from plumber	
<b>5.Power Board</b> near kitchen has not been upgraded???				Monitor	
<b>6.Defibrillator</b> ( Purchased 2011) Need for retraining at a later stage Check pads & Replace if out of date.	S	S	NBFNC Deb Weir	a)To be reviewed in 2018	ongoing
<b>7.Cleaning Roster</b> for Complex a) during Footy season.(Footy /Netball Club) b) for summer season -Rec members c) Need to discuss cleaning options for future use now that facilities have been upgraded. d)Maintenance/Cleaning of carpet and lino areas- arrange to have professional cleaner	S		Football/ Netball; Cricket; Tennis	a)Footy club to prepare roster b)Create a ‘summer’ roster, inform user groups & display roster. c)Meeting with user groups in 2015 after upgrade d)	ongoing
<b>8.Hiring of venue-</b> Ongoing review -prepare Hire of Venue paperwork -engage Booking Officer -review fees		S	NYRR; PSC; CofM,	-prepare Hire of Venue paperwork -engage Booking Officer -review fees	

<b>14.Internet access</b> 1.Aerial to improve service	S		S	NBFNC	1.Test to see if this will help with connection	
<b>FARMING</b>						
<b>Farming issues</b> - Landcare holds workshops - PSC holds information sessions	E		L	Landcare: PSC		
<b>LANDCARE</b>						
<b>Landcare projects</b> that support farmers and the environment. - Conduct forums & onsite demonstrations to support farmers	E	N		CMA PSC	- Work with CMA to support weed control, erosion control along river.	
Workshops during the year	S	E		NYL;NCC MA; DELWP		
Membership Drive due to ageing members	S			Co M		
<b>PRIMARY SCHOOL</b>						
<b>Back gate access in case of fire- OH&amp;S</b> Currently only one access to the school yard and that is thru front gate.	N	S	S-M	Ed Dept; Property owner; SchCouncil	1.Make contact with adjoining property owner.	
<b>Declining enrolment</b>	S				Advertise the School & its programs
